christopher-marshall.github.io

Berlin, Germany

christopher.marshall.works@gmail.com

Senior Technical Writer

10 years of experience turning complex products into documentation that speaks directly to its audience. I pair docs-as-code (Markdown, Git, CI/CD) and the Diátaxis framework with hands-on data analytics (SQL, Python, Tableau) to capture knowledge and answer real user questions.

KEY SKILLS

Documentation

Docs-as-code · Diátaxis · API reference · Information architecture · Style guides · UX copy

Data & Analytics

SQL · Python · Tableau · BigQuery · Google Analytics · Data-processing workflows

Tools & Platforms

GitHub · Docusaurus · ReadMe · Swagger · Confluence · Jira · Figma · Salesforce

EXPERIENCE

Professional Development

May 2026–Present

Berlin, Germany

- Completed an intensive Data Analytics Bootcamp at WBS Coding School (SQL, Python, Tableau, BigQuery), building data skills to complement my technical-writing practice.

Technical Writer at Shoreline

April 2023–September 2025

Remote

- Led the end-to-end migration of 200+ pages of product documentation from a legacy CMS (*Freshdesk*) to a docs-as-code stack (*Docusaurus*, Markdown, Git) within 12 months, re-architecting the content set during the transition.
- Owned documentation as sole writer across 3 product areas (2 web apps, a mobile app, and 2 APIs), partnering with product, engineering, and design on every release.

Technical Writer at Infarm

October 2021–January 2023

Berlin, Germany

- Authored installation, product, and user manuals for complex farming-hardware systems, maintaining versioned documentation across 3 farm generations and 10+ subcomponents.
- Ran multiple concurrent documentation projects across installation, R&D, engineering, and SCM, extending into commissioning and maintenance procedures.
- Structured and maintained the full installation resource library in *Confluence* and *Google Drive*, improving content accessibility and usability.

Technical Writer at super.AI

April 2019–September 2021

Berlin, Germany

- Owned all documentation for a machine-learning data platform. Authored nearly 100 pages from scratch, first in an SSG, then ReadMe, including an API reference covering ~30 endpoints. Worked in close partnership with developers and product managers.
- Documented data-processing workflows and developer-facing tooling; wrote tooltip and UX copy tying the product to its docs.
- Tested features hands-on with *Python*, *cURL*, and the *CLI*, filing bugs during content creation; produced SEO blog content.

CHRISTOPHER MARSHALL

Technical Writer at **Adjust**
December 2016–December 2018
Berlin, Germany

- Built a client-facing help center in *Salesforce*, establishing the style, grammar, and formatting standards adopted across teams.
- Managed a team of translators (Chinese, Japanese, Korean) and triaged company-wide documentation requests; adopted *Git* for content management.
- Documented 10 major and 50+ minor feature releases and wrote UI copy as part of an international product team.

Editor at **AndroidPIT**
October 2015–October 2016
Berlin, Germany

- Wrote and published articles for an English-language site with 20M monthly unique visitors, with pieces ranking on Google Search and Google News. Most-read article: 9M reads.
- Managed social media and audience analytics (Google Analytics), engaging readers across comments and forums.

OTHER EXPERIENCE

2015–2016

Freelance Writer & Researcher: 12k, market research for clients including *Audi*, *Beiersdorf*, and *Egon Zehnder*; NowDiscover, web copy and white papers.

2014–2015

Science Journalism Intern, European Southern Observatory, Munich (produced press releases, announcements, and multimedia captions to strict deadlines).

QUALIFICATIONS

Data Analytics

Data Analytics Bootcamp, WBS Coding School, Berlin (2026)
SQL, Python, Tableau, BigQuery, data visualisation

Degree

BA Philosophy and English – 2:1, University of Reading (2007–2010)

PERSONAL

I read a lot, mainly philosophy, poetry, and novels. I have played guitar since I was a teenager and play instrumental acoustic tunes by the likes of John Fahey. I also like running and have done a few 10k races, a couple of half marathons, and one full marathon.
